

INFORMATION TECHNOLOGY: PRACTICAL EXAMINATION

INSTRUCTIONS TO TEACHERS

1. For the examination requirements for Information Technology please read pages 3 – 5 of the *Subject Assessment Guidelines*.
2. The school will receive a data disk containing files for the examination. These should be checked by the Information Technology teacher two days before the examination. Please refer to the instructions concerning data files supplied on page 3. Copies of the data are provided later in this document for your reference.
3. Do not open the sealed envelopes containing the examination papers and marking guidelines until the day of the examination.
4. Each candidate must be supplied with a disk (or space on a network drive) for his/her exclusive use throughout the examination.
 - (a) No candidate may have access to another candidate's work during the examination.
 - (b) Disable any shared folders on the network.
 - (c) Ensure that the candidates cannot use their own flash drives or memory sticks. If your candidates normally use usernames and passwords then create a new username for each candidate.
5. Please ensure that the machines have been checked and all extraneous data/programs have been removed. Disable communications programs that will allow chatting or messaging. Ensure that no communication can take place between machines. No candidate may access the Internet during the examination.
6. Information Technology teachers are allowed to invigilate the Information Technology examinations, in case there are problems with the hardware and system software. Obviously, they may not assist the candidates in any way with their particular program(s).
7. The candidates may use the help facility that has been supplied with the programming language's software. They may not use any other manuals or documentation. In the case of Java, they may use the standard APIs available on the java.sun.com site. These should be downloaded **before** the examination and copied onto each candidate's disk space provided for the examination.

8. The three hours of the examination does not include printing time. It is exclusively for coding. At the end of the three hours, printing must be done either by the candidates, or if conditions are not suitable for this, by the Information Technology teacher. No code or data may be altered after the three-hour time period has expired.
9. Teachers must inform their candidates what printing arrangements have been made at their school.
10. Information Technology teachers must mark a sample of five papers of their candidates' work, using the supplied *interim memorandum and marksheet* as a guideline. They must then meet with their cluster group to discuss potential problems with the marking memorandum, as outlined in the *Subject Assessment Guidelines* document.
11. The mark scheme and solution given is just one way of solving the problem. If a candidate has solved the problem in a different manner that still uses good programming techniques and incorporates all aspects of the question, then full marks may be awarded.
12. Place **ALL** your candidates' printed work and updated marksheets in **ONE** envelope with the school name and examination number clearly marked on the outside of the envelope.
13. With the exception of the sample of 5 papers, the interim mark scheme may **not** be used to mark the candidates' examinations. The updated mark scheme must be obtained from <http://groups.yahoo.com/group/iebcompza> or www.ieb.co.za one week after the examination. A candidate's work must be marked using the mark scheme spreadsheet so that the spreadsheet will calculate the candidate's total mark. Place a printed copy of the spreadsheet in front of each candidate's solution. Make sure the examination number is clearly visible on each marked script. Teachers must show evidence that the print-outs have been marked by indicating ticks and so on. Marking should be done in red pen.
14. You will receive a summary mark schedule for the centre which must be returned with the candidates' marksheets and printouts. These marks should also be entered via the IEB online facility.
15. Please note that the Information Technology question paper has been divided into two sections: the first is for Structured Query Language (SQL) and the second for Object Oriented Programming.

TO THE TEACHER RESPONSIBLE FOR CANDIDATES IN THE INFORMATION TECHNOLOGY PRACTICAL EXAMINATION

INSTRUCTIONS CONCERNING DATA FILES SUPPLIED ON DISK

You have been supplied with files on a CD. It is the responsibility of the Information Technology teacher to check **two days before the examination** that they can open the files and that the files can be read by the relevant applications. Printouts of the files are given, starting on the page following in this document. The details of the files are as follows:

Files for Learners: Please consult the folders on the CD. These are the important files only.

Section A:

- SQL Answer Sheet.rtf
- TrafficFines.mdb
- TrafficFines.sql (MySQL import)
- SQL Browser software

Section B:

- licence.txt

If you have any problems with accessing the files on disk, please notify the IEB immediately.

Individual copies of these files will be required by each candidate writing the Information Technology Practical Examination. Please copy the relevant files onto a disk for each candidate's exclusive use, or onto the disk space that will be used exclusively by each candidate.

Teachers are advised to supply only those files that are needed for the pupils in their centre (don't supply the MySQL files if your candidates are writing with Access or *vice versa*).

Confidentiality is of the utmost importance. Under no circumstances should candidates have access to these files before the examination.

After the examination, create a folder for each candidate using their name and examination number. Copy ALL the candidate's files into their particular folder. Be sure to include the data files that are accessed by the program. Ensure that the candidates have not used path names for the data files in their programs. If candidates have used full path names, the files sent to the IEB must reflect this. Teachers may change the code for the purpose of validating the program, but may NOT overwrite the original file. Send the CD with the marked practical examinations to the IEB. Ensure that you have attended the cluster group meetings and have used the updated mark schemes to mark all the practical exams.

Each candidate will be supplied with an IDC form which must be completed and returned with the candidates' scripts.

Files for Learners

The following pages contain the printouts of the code supplied to each of the candidates.
