

INFORMATION TECHNOLOGY: PRACTICAL EXAMINATION 2014					
Question	Total	Level1	Level2	Level3	Comments
1.1	3	3	0	0	Simple Select with single restriction (Level 1)
1.2	3	3	0	0	Simple Select with specified fields (Level 1)
1.3	4	4	0	0	Insert (Level 1)
1.4	2	2	0	0	Delete with simple criteria (Level 1)
1.5	5	0	5	0	UPDATE using complex set (Level 2)
1.6	6	0	6	0	Aggregate function, grouping by a single field (Level 2)
1.7	5	0	5	0	Statements joining two tables (Level 2)
1.8	5	0	0	5	Nested Query, Advanced function IN (Level 3)
1.9	7	0	0	7	Nested Query, aggregate function and two criteria (Level 2)
Totals	40	12	16	12	
Flight Class					
2.1	1	1	0	0	Class Declaration (Level 1)
2.2	3	3	0	0	Simple Attributes declaration as variables (Level 1)
2.3	3	1	2	0	Constructor (Level 2 OOP Modelling under direction) Variable Assignment (Level 1)
2.4	3	0	3	0	Simple Accessors (Level 2)
2.5	4	2	2	0	Method Declaration (Level 2) Concatenation (Level 1)
Totals	14	7	7	0	
Ticket Class					
3.1	1	1	0	0	Class Declaration (Level 1)
3.2	3	1	2	0	Simple Attributes (Level 1) Attributes as Objects (Level 2)
3.3	3	0	3	0	Constructor Method with Objects as Parameters (Level 2)
3.4	1	0	1	0	Simple Accessors (Level 2)
3.5	2	0	2	0	Accessor Methods that Return Objects (Level 2)
3.6	2	0	2	0	Accessor Method that returns sum of two object method calls (Level 2)
3.7	3	1	2	0	Method Declaration and calling toString of Object Attribute (Level 2) Concatenation (Level 1)
Totals	15	3	12	0	
FlightManager					
4.1	1	1	0	0	Class Declaration (Level 1)
4.2	3	2	0	1	Simple variable declaration and 1D array declaration (Level 1) array of objects (Level 3)
4.3	15	6	3	6	FileInput (Level 1) Calling object constructors (Level 2) and Using objects as parameter for constructor and Inserting into Array of Objects (Level 3)
4.4	5	2	3	0	Method declaration and output concatenation (Level 1) Generic Algorithm for concatenating objects toSring (Level 2)
4.5	8	0	6	2	Simple Sort (Level 2) Sort field is an object method (Level 3)
Totals	32	11	12	9	
FlightUI					
5.1	1	1	0	0	Create Interface (Level 1)
5.2	1	0	1	0	Create FlightManager Object (Level 2)
5.3	2	1	1	0	Call Methods and Output (Level 1)
Totals	4	2	2	0	
Question 6					
6.1	4	0	0	4	OOP modelling from problem definition unguided (Level 3)
6.2	10	0	0	10	Unseen problems, adapt learned algorithms to unique situation (Leve 3)
6.3	1	1	0	0	Call Methods and Output (Level 1)
Totals	15	1	0	14	

120	36	49	35
%	30	41	29
